ST. MARTIN'S SUMMER.

This is the time when the honey-suckle flowers again.

Poignantly and aching-sweet against the lattice-bars.

And long black lines of homing birds forget the winter hours again.

And wonder if the spring is back and pulse against the stars.

This is the time when the heart seeks back to youth again.

Knowing stars that love it still and winds that beat and sing.

Building earth's green fairy-tale to dreams again and truth again.

Oh wretched heart—oh hovering bird—go by . . . it is not spring!

—Margaret Widdemer.

THE BIG VIEW VS. THE LITTLE VIEW

THE keynote of the Michigan Republican convention was denunciation of the "impracticable idealistic objects of President Wilson."

But the idealistic objects of our president are not impracticable. His idealistic diplomacy undermined the militarists of Germany and Austria and caused the central empires to cry for peace while their great armies were still intact and able to fight.

The league of nations is no impracticable ideal. The plan is founded on basic truth. It is not more impracticable than was the formation of the American republic out of 13 separate colonies.

We have good Republican advice that the league of nations is a sound plan.

All Were Pleased

Many were the expressions of admiration by those who attended our opening today.

They were pleased with the beautiful garments. Pleased with the service, and pleased with the "difference" in price as compared with what they had been in the habit of paying in the past.

We invite inspection and comparison.

Here's A Gentle Laxative For Elderly People

A daily free movement of the bowels becomes a serious problem as you step from middle-life into old age, and much dependence can no longer be placed on nature herself. The bowels find artificial aid necessary.

The stronger the physic, as old people soon learn, the greater the contraction of the bowels thereafter, and so the wise purposely avoid salt waters, pills and other harsh purgatives. Many have learned to place absolute reliance on the gentle but positive action of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin.

It produces an agreeable movement as nearly natural and free as high pharmaceutical skill can make it. Thousands use it regularly, in the small dose prescribed, and keep themselves in fine health and good cheer, and entirely free from constipation.

The druggist will refund your money if it fails to do as promised.

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 28 years. Two sizes—50c and \$1.00.

FREE SAMPLES—If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

JAPAN TO COMPETE FOR PACIFIC RULE

(By United Press.)

TOKIO, Feb. 6.—(By Mail)—Japan's plans to compete for trans-Pacific freight-carrying supremacy were advanced greatly today in the announcement of perfecting details for a company which will be Japan's largest freight steamship concern.

T. Ishida, managing director of the Ocean Transport company will probably be named managing director and auditor of the new corporation, which will be called the Tokyo Kaisha Kaisha of Ocean Steamship company.

The new firm, which will have its head office at Kobe, will have a capital of 20,000,000 yen. It will put eight freighters in the trans-Pacific trade. This fleet will aggregate 70,000 tons and will, for the most part, be completed this year at a cost of approximately \$2,000,000.

"The indication," said Ishida, "point to the keenest rivalry ever waged by steamship companies, and we must be in a position to compete on an equal footing with any of the other competitors in the trans-Pacific business. We are not aware of the number of steamships in England, America and other nations that are gradually resuming their former oriental services. Nevertheless, it is our belief that shipping on the Pacific, as well as on the Atlantic, will be as prosperous in the future as it was before the war, and probably more so. A great number of ships will be required for European trade, for transportation of reconstruction materials and food-stuffs.

ECZEMA SO BAD COULD NOT SLEEP

This trouble lasted six and a half months before I used Cuticura, and I used a sample of Cuticura Soap and Ointment and one full-sized cake of Soap and one full-sized box of Ointment which healed me."
